Harry Silverberg, Born in Atlanta, Reported on Way to United States.

New York, August 23.—(Special.)

After ten years of absence from the world, in so far as newspaper records show, Harry Silverberg, born in Atlanta, and known as the greatest of international swindlers, has come into the limelight again, according to news dispatches from Paris.

Stories from that city state that he appeared in Paris several months ago and representing himself as ex-Governor Folk, of Missouri, won the confidence and the support of business men and social leaders. At the very moment that he was enjoying the success of the game he was playing he was caught, it is stated in the act of swindling big corporations and wealthy women. Clever as he has always been, however, he managed to escape the consequences of his actions and is now reported to be on bis way to the United States.

Text of the Resolution Adopted by Grand Jurors

Here are the resolutions unanimously adopted by members o the last four grand juries of Fulton county, in which Atlantans are urged to support only candidates pledged to police reform when they vote in the primary of August 31:

"Criminal bands with interlocking interests ruthlessly prey "They debauch our youth, corrupt our police, devour our sub-

stance, terrorize our people. "For ten months your grand juries have spent day upon day following their devious trails, unwinding the web of crime. Protection Is Sold.

"Four successive grand juries have pointed out that the tracks always lead to one door. "Four times we have told you that protection is sold to bunco swindlers and bootleggers, and that automobile thieves and bur-glars are growing rich off the loot they take from you.

"Successive grand juries have recited the criminal conditions which exist, and have made ringing recommendations urging the mayor and general council to take certain steps, which we believe, would check the tidal wave of immorality.

"The general council appointed an able committee to investigate charges of incompetence and corruption, which grew out of certain indictments and presentment.

Findings Repudiated. "After seven weeks of patient and thorough investigation, the committee, by a vote of four to one, recommended the dismissal of certain detectives and the reorganization of the police department. General council flatly repudiated the recommendations of this com-

"In so doing, general council ignored overwhelming evidence and outrageously insulted the decent and law-respecting citizens. "Instead of protecting the citizens, general council condoned the sale of indulgences to banditti, who are guilty of every crime from purse snatching to assassination. More strongly intrenched than ever, the crooks are increasing in number and extending their

"You risk your life if you walk the streets after dark. "The pedestrian escapes the terrors of downtown traffic by day only to be held up and robbed by night.

"The little corner grocer is a preferred victim. Fortunate is he if he saves his life at the cost of his cash.

"While the courts have convicted a few detectives, and we pelieve only a beginning has been made, the process is slow. Political Influences Intervene. "The courts must have the co-operation of state, county and city officials, and especially of the city police and detective departments. But strong and sinister political influences secretly oppose

The meeting was called to further the candidacy of I. N. Ragsdale, who is opposed by Carl Dolwin for alderman of the tenth ward. ng held at Moreland and Euclid

On Mann Act Charge

Savannah, Ga., August 23.—(Special.)—W. H. Mullen, mon-union locomotive engineer of the A. B. & A. railroad, who, as a result of efforts by the Brotherhood of Locomotive Engineers was apprehended at Brunswick a few days ago and brought to Eavannah on charges of violating the white slave act, was released from jail today.

Federal officers found that no action could be pressed against him because of the statute of limitations. Alleged bigamy charges could not be recognized by the federal court, it was said, and if the Brotherhood persists it may press this latter charge against Mullen in New York, where his second marriage is said to have taken ond marriage is said to have taken

man C. K. Garner, of the fifth ward, candidate for re-election; and the school board in the third district; Councilman Walter A. Sima and Mrs. N. L. Barker, president of the Moreland Parent-Teacher association, spoke in the ninth ward.

Among the speakers in the tenth ward were Councilman T. Frank Callaway, candidate for re-election; C. T. Bailey, E. M. Gordon, A. T. Peacock, and Judge T. Y. Brent. The meeting was called to further, the candidacy of I. N. Ragsdale, who is opposed by Carl Dolwin for allerman of the tenth ward.

Support for the proposed tax increase to be voted on August 31 was urged by speakers at both railies.

Two candidates asking for votes on the same platform was the situation which presented itself in the ninth word. Horace Russell and D. K. Ellis are each making the race for council on a platform of police reform, and both declare their unqualified indorsement of the recommendations of three grand juries and the majority report of council's lanced by the unruly firemen and ward to sleep. Address By Ellis.

Mr. Ellis spoke briefly. He declared himself 100 per cent in favor of the grand jury recommendations and the majority bunco report, and took a strong stand for more school improvements and better streets.

To Alderman Garner, who was a visiting candidate, was extended the courtesy of speaking first. He declared that because he voted his convictions and opposed the majority bunco report he had been placed by "The Constitution, Clark Howell and his paid people in a class with theives and thugs.

"I voted against that report because just the year before we had an exhaustive investigation and found nothing," explained the alderman. "On that committee were some of the best men in the council, Harvey Hatcher being one of them. They found the police department to be efficient.

"If you knew what is back of this you would rise up and smash it before August 31." he declared.

A. C. Meixell made a strong appeal to the voters not to oppose the tax raise and told them that now is the finest time in the world for them to get together and do a big thing in a big way by voting for the increase.

Sims Makes Speech.

He was followed by Councilman Savannah, Ga., August 23.—(Special.)—B. W. Davis, for several years actively engaged as a real estate agent in Savannah, tried and convicted of the murder of Thomas White, a client with whom he had a difference over a commission, and sentenced to hang on Friday of this week, has had a stay of sentence pending a hearing on a motion for a new trial September 12.

The hearing was to have been held yesterday, but was continued. New evidence will be presented the court, it is said, to show that Davis was insane and that he had been an inmate at one time of an asylum in Jefferson county, Alabama.

The records contain a certified copy of the commitment of "B. W. Doves" and it is said that he was indicated as "alias B. W. Davis alias Daniel" and the sanitarium officials could get little out him except that he lived "in Savannah". He is said

thing in a big way by voting for the increase.

Sims Makes Speech.

He was followed by Councilman Sins, who showed that the schools will be compelled to remain closed this fall if the people fail to ratify the tax referendum at the polls, "and if this is done," he asserted, "it will be a disgrace to the city and a stigma on her name."

Mrs. N. L. Barker, president of the Moreland Parent-Teacher association, stated that the executive committee had indorsed the candidacy of Commissioner W. H. Terrell, who is running for re-election in the first district and asked the voters to support him.

W. Paul Carpenter, assistant United States district attorney, presided at the meeting and introduced the speakers. There were approximately 125 citizens present:.

Featuring the tenth ward meeting was the organization of committees to carry the fight for I. N. Ragsdale into every ward in the city. Mr. Ragsdale has not committee himself on the bunco issue. \$1,000 FINE AND TERM IN JAIL IN LIQUOR CASE

FORCE OF ARMED MINERS GROWING

Charleston, W. Va., August 23.—
Reinforcements for the men encamped at Marmet. a few miles from Charleston, continued to arrive today at the hollow, where it was estimated last night by Sheriff Walker, of Kanawha county, that 2,000 already had assembled since Saturday with the expressed intention of marching to mingo county. According to ports received at Governor Morgan's office 1,500 men from the upper Cabin creek coal fields arrived at Marmet today on freight trains. All mines in the Cabin creek district are reported to be idle because of the absence of miners.

Reports were current about the capitol that two regiments of federal troops were being held in readiness at Camp Sherman for duty in the coal fields should the governor ask for aid. Governor Morgan declined to discuss the reports.

A commercial airplane, carrying a photographer, was reported to have been fired upon as it circled the Marmet camp today. Half a dozen bullets are said to have struck the machine, but the pilot and photographer escaped.

Hard Work Remedy For Business Ills, Merchants Hear

Memphis, Tenn., August 23.—Hard work was prescribed as a restorative for business which was declared to be "already on the mend throughout the south," by S. G. the Cotton States Merchants' association's annual convention here today.

In stressing the necessity for "getting down to work." George R. James, of Memphis, told the merchants that "from 1½ to 2 per cent is knocked off a pound from American cotton sold to England for faulty handling in America. meaning around \$10 a bale loss to the Amercan grower." Another point he emphasized was that "public gins, after running low grade cotton, are not cleaned before good cotton is run through, thus lowering the value of the good cotton."

F. W. Nelson, of Lincoln, Neb., president of the National Retail Credit Men's association, spoke on the progress made in the credit organization throughout the nation. Other speakers included Gerald Fitzgerald, of Clarksdale, Miss., who described business conditions abroad, and Leroy Percy and A. H. Stone, of Mississippi, who discussed the marketing of cotton.

The attendance for the convention which continues for three days, was declared to be the largest in the history of the association.

Watson Opposes Public Sessions TO U. S. DECISION On Disarmament NOTE NOW READY

Panama, August 23.—Coto has been ordered evacuated by the civilian authorities so that the Costa Ricans on their arrival there will find no Panaman government representatives, Ricardo Alfaro, secretary of government and justice, made this announcement this afternoon.

The order will not reach Coto before Friday, as, owing to interruption of phone communication between Coto and David, it will have to be transmitted by courier.

The order of evacuation is the immediate result of the last note of Secretary of State Hughes to Panama saying that the United States would not allow a resumption of hostilities. Senor Alfaro says an answer to the note of Mr. Hughes will be forwarded to Washington tomorrow.

Although the Panaman government has notified the state department in Washington that no resistance will be offered to Costa Ricans in occupying the disputed territory at Coto, Narciso Garay, the Panaman foreign minister, who is now in Washington, has been ordered to leave there immediately, but to file a protest with the state department.

Washington, August 23.—(Special by Constitution Leased Wire.)—Satisfaction over the outcome of the recent republican work in Georgia was expressed today at national headquarters following a conference between J. L. Phillips, new state chairman, of Thomasville, and G. H. Messrs. Phillips and Williams stated that a great deal of interest was being displayed at republican headquarters over the success of the Georgia situation, and that the methods used those was terms.

was being displayed at republican headquarters over the success of the Georgia situation, and that the methods used there were to be employed in other southern states in the organization of the party. As evidence of this fact, it was stated that a delegation of republicans from Mississippi were also present during the converence in behalf of a like organization for that state.

State Chairman Phillips and Mr. Williams consulted National Chairman Adams and Vice Chairman Keeling on important matters to be brought up at a meeting of the new party in Atlanta next week, when an executive committee will be selected to complete the organization in districts and counties of the state. During the Atlanta meeting plans will be formulated for the disposition of patronage in Georgia, it was stated, as distribution of federal offices within the state has been unofficially designated to the new organization. Following the meeting and the arrangement of plans, the first appointments to the various federal positions in the state are expected to be made by the president.

Gompers Protests Against One-Sided Protection of Law

Atlantic City, August 23.—"When congress uses its taxing power for the protection of the dairy interests against competititon of oleomargarine, it is sustained by the courts, but when the same power is used to safeguard the life and health and promote the welfare of children, such a course is declared invalid and of no effect," was the protest of President Samuel Gompers Tuesday, against the action of Federal Judge, James E. Boyd, of Greensboro, N. C., on Monday, in declairing the federal child labor law unconstitutional. Formal demand has been made that the decision be appealed if not overruled at once.

This protest was voiced in the course of the second day's session here of the annual meeting of the executive committee of the American Federation of Labor.

Highest Sinn Fein authorities declare that they "know nothing regarding the rumor" that the church has intervened, asking De Valera to bend every effort towards peace in Ireland, and refuse to discuss this phase of, the situation.

The closest secrecy over the discussions at the mansion house is still maintained, but many politicians believe that negotiations with Ulster are in progress in an attempt to persuade the north to take a more conciliatory stand, whereupon Sinn Fein might more easily suggest a modification of the British proposals.

The influence of the church, if thrown towards peace, naturally would be felt. At the same time it is pointed out that the leaders of Sinn Fein differentiate sharply between religion and politics—ase evidenced in the fact that while some of the highest church dignitaries in Ireland have branded the shooting

Labor is still a costly item, and time is always money.

Much time and labor are saved by covering your walls and ceilings with Carey Board. It comes in large panels which anyone can put up with a knife or saw and a hammer.

It makes a clean, smooth wall that never can crack, that does

not have to dry out, and that does not call for painting, papering or decorating. It can, of course, be decorated, if desired.

Carey Board is superior to all other wallboards, because of the way it is waterproofed. Why not get the best? Advise us about the amount of space you have to cover.

Tired and Nervous-from the Lack of Sleep? Do You Know the Reason Why?

Sleep time is the time when the reconstructive processes in your body are busiest - turning food into blood, and nerve tissue, and living cells.

That's the reason why lack of sleep makes you irritable, inefficient and nervous; and why you lack "punch" when you don't get a proper amount of the right kind of sleep.

It has been the experience of many that the cup of tea or coffee, taken at meal-time, robs them of sleep.

In Gould and Pyle's Cyclopedia of Medicine and Surgery you'll find that "caffein is a rapidly acting stimulant to the brain and spinal cord, quickens the action of the heart, and raises blood pressure."

This makes it a very good medicine if prescribed by a doctor for cases of collapse, when a patient needs to have his system abnormally forced into activity. But caffeine is not good for

people whose systems don't need to be drugged.

So if you don't get your proper sleep at night, it may be because you are being kept awake by tea or coffee.

Stop tea and coffee for awhile and drink Postum-the delicious cereal beverage.

Postum is a pure cereal product, and contains no harmful element whatsoever. Your first taste of Postum will surprise and please you. Many people prefer the flavor of Postum to that of

Order Postum from your grocer today. Drink this hot, refreshing beverage in place of tea or coffee for ten days, and see what a wonderful difference it will make in the way you feel.

A WAY TO HELP.

A circular letter sent out by the publications bureau of the Portland Cement association contains the significant statement that "usually business is as good as we make it, and if we all concentrate a little more on making business good, a lot of things which periodically seem to be pressing for solution will just naturally take care of themselves."

An editorial in The Concrete Highway Magazine, published by the association, urges cities, counties and states to take advantage of the present "slack times" to push public improvements to the utmost, both on account of the comparatively moderate cost of such work now, and to provide employment for hands that would otherwise be idle; also as a means of keeping the spirit of business alive and active.

As the highway magazine argues the point-

This affords to acquire needed improvements at an exceedingly reasonable cost and to keep business moving."

Of course, what the Portland Cement association is most immediately interested in is the cement business; and the more concrete roads that are built, the greater the demand for cement,

Presents Argument Against Increase in City Tax Rate

to the charter of the city providing for the increase of the permanent tax rate from \$1.25 to \$1.50 per \$100. This is a 20 per cent increase in the rate of taxation. Principles-Not Personalities.

In the discussion of this question, it is not necessary to enter upon criticisms of persons of personali-ties. The problem deals with the system of our city government and the principles upon which it is be-ing administered. I realize that the mayor, when he finds himself with out arguments to support his de-sired schemes, delights to launch versired schemes, delights to launch verbal attacks upon the personalities of those who in good faith differ with him. And true to this characteristic, he has made some sarcastic remarks concerning me. But the present question before the people is far above me and above the personality of the mayor, and, in fact, our personal affairs have nothing to do with the discussion of the increase of the tax rate.

Consumer Bears the Burden.

increase in the price of his goods. And if the tenant be using the property for his home, the increased property for his home, the increased rent will pass the burden to him. But the man who owns his home cannot pass it from his shoulders. Therefore, the rich do not pay this tax, but the consumer, the homeowner and the tenant must bear the burden. So a gerat mistake is made to say that this tax will not affect the small taxpayer or the poor man. And the people will not be misled by any such false argument.

History of This Amendment. When the bond issue was before the people I heard the mayor make Spring street viaduct. They could be accomplished, he said, either by an increase in the tax rate or by bonds, and that he was in favor of bonds because in this manner the cost could be distributed over a period of years and not levied by immediate taxation. He said, therefore, it was for the people to decide whether they wanted bonds or increased taxes. And by their almost unanimous vote they decided for bonds instead of increased taxes. If both were necessary why didn't he then say so? After the people had so expressed their wishes for bonds, and against a tax increase, onds, and against a tax increase, the present city administration went to the legislature at its last session to the legislature at its last session and asked for a law increasing the city tax rate to \$1.75 and without submitting it to the people. They did not ask for a rate of \$1.50 but they wanted a 40 per cent increase of taxation inflicted on the people of this city without giving them a chance to express their views on it at the polls. It was to be arbitrarily placed upon the taxpayers regardat the polls. It was to be arbitrarily placed upon the taxpayers regardless of their wishes. Such is the manner in which the wishes of the people are disregarded and ignored by these champions of the rights of the people. But the legislature very wisely reduced the proposed increase to \$1.50 and said that it must be ratified by the people who had to bear the burden.

Increased Assessment. This amendment will increase the what it has been. This is levied on the property of the people based on the assessed value of the property as fixed by the city tax assessors. In the last three years these assessments have been increased until this county will pay one-fifth of the entire taxes of the state of Georgia. In 1921 they have increased the assessments about \$30,000,000 over what it was in 1920. This is an involuntary and indirect way of increasing the tax rate of the city. It is another method of extracting money from the taxpayers. So in 1919 and 1920 they levied emergency taxes on the increased assessment. And in 1921 they, in spite of the fact that the people had voted for the bonds, attempted to levy another emergency tax but it was enjoined. rate of taxation 20 per cent over

the bonds, attempted to levy another emergency tax but it was enjoined by the courts. They now come and ask that the taxpayers levy an increase of 20 per cent upon the increased assessments of the last three years, amounting in 1921 to a \$30,000,000 increase. We can illustrate the effect of this in this manner: If within the last three years asssessments have been increased as

sessments have been increased as much as 10 per cent each year, making a total of 30 per cent (and undoubtedly they have been increased more than this sum), then the amount of taxes paid at the proposed rate of \$1.50 for 1921 will be 50 per cent more than it was in 1918. Therefore, instead of going back to normal times in the city affairs, just as business men are endeavoring to put their businesses on a pre-war basis, they propose to increase the cost of operation of the city 50 per cent over what it was in 1918.

Where Does the Money Go?

They tell you that they have no money with which to pave streets, ssessments have been increased as much as 10 per cent each year, making a total of 30 per cent (and undoubtedly they have been increased more than this sum), then the amount of taxes paid at the proposed rate of \$1.50 for 1921 will be 50 per cent more than it was in 1918. Therefore, instead of going back to normal times in the city affairs, just as business men are endeavoring to put their businesses on a pre-war basis, they propose to increase the cost of operation of the city 50 per cent over what it was in 1918.

pair and improve the streets. Fractically no streets are being paved in Atlanta except at the expense of the property owners or the county. In this the city is not paying its one-third of the costs, assigning as its only reason that it has no money. Where has the money for street paying gone?

So much for that.

Everybody must admit that the site of the present discarded governor's mansion, on Peachtree, near the theatrical and business cent to fee city, is an admirable location for a great civic auditorium. No better could possibly be chosen if the city had every foot of property within its borders from which to select, and the same act providing for the leasing of this mansion site for a period of seventy-five years.

Why, then, would it not be the proper thing to do, as a solution to both the permanent auditorium and public market purposes and acquire lease to the manison site—which could, of course, be renewed or made permanent at the expiration of the present seventy-five years in the could, of course, be renewed or made permanent at the expiration of the present seventy-five years in the could, of course, be renewed or made permanent at the expiration of the present seventy-five years in the case of the city had been economically and in a business-like manner spent there which could, of course, be renewed of made permanent at the expiration of the present seventy-five years in the rate of taxation. Fault Is With the System. Our city should be run as eco nomically as any business. It is nothing but a corporation with its citizens as stockholders and it should be run along the same ecois far above me and above the personality of the mayor, and, in fact, our personal affairs have nothing to do with the discussion of the increase of the tax rate.

Consumer Bears the Burden.

It is a question which affects every man, woman and child in this city. It affects the rich and the poor alike. And the ultimate burden rests upon the small homeowner and the consumer. For the landlord can increase the rent to meet this tax and thus pass the burden to the tenant. If that tenant be a butcher, grocer or merchant, he can pass it to the consumer by an increase in the price of his goods.

No Time to Increase Taxes.

Every business man and every nomical and efficient lines as a busi-

Wages are being cut, salaries decreased and all unnecessary expenses are being avoided. Our city should be doing likewise. The demand throughout the wise. The demand throughout entire country is for a decrease entire country is for a decrease taxes. Congress is now reduction by \$318,00 increase our taxes 20 per cent. It is no time to increase taxes. They is no time to increase taxes. The should be reduced, not increased.

the people I heard the mayor make two speeches in favor of the bonds. He stated that so-called "emergency" taxes had been levied in 1919 and in 1920. And that they would continue until by a bond issue sufficient funds could be raised to make the improvements in the schools, the waterworks and sewers and to relieve traffic congestion by the Spring street viaduct. Letter From Suttler Favors Tax Raise

Editor Constitution: I am enclosing you a letter from Mr. Bernard make a good letter for your paper. It is not a question at all of trying to scare the people, but we are and there is no alternative, other than to close the schools or, run them on a tuition basis, which would make it impossible for the poorer people to attend.

Tax Situation.

Anent the present school tax situation in Atlanta I submit herewith certain facts which you are at liberty to use in any way you may see fit. We have built up a mighty and most complex civilization but it is a certain fact that it is all we have, and we must do the best we can with what we have. Peoples everywhere are constantly demanding more of government and city populations are insistent in their demands.

Atlanta's government costs \$30

Atlanta's government costs \$30 per capita, or say 10 cents per day for every person within its limits.

money with which to pave streets, or to make the necessary improvements in the waterworks, and sewers, and that the schools cannot be opened for lack of funds. Then in all fairness to the taxpayers it can be asked, where does the money of the city go?

Streets—Conditions.

The principal streets leading from the center of the city almost without exception need paving. Look at Marietta, Decatur, Broad, South Forsyth, South Pryor streets and Edgewood avenue. They say they have no money with which to repair and improve the streets. Practically no streets are being paved in Atlanta except at the expense of the property owners or the country in this the city is not paying its one-third of the costs, assigning as its only reason that it has no money. Where has the money value.

Bits of New York Life

BY O. O. M'INTYHE New York, August 23.—It was that hour when serious thinkers of Greenwich Village enter upon their twilight study of Russian. This study hour is generally followed by some light relaxation-such as an informal discussion of the Oedipus complex or the comparative influ-ences of Jung and Freud.

It was no place for one of my schools, amounting to about \$170,000, and puts this school money into the general funds of the city and gives to the schools only 22 per cent of it. It is proposed that if the tax rate is increased it will turn over to the schools this state school fund. Why hasn't it been done before? Does it require argument that state school money should be used for its schools money should be used for its schools? If the city would stop diverting this school money which comes from the state and would make economic expenditure of its money it could give to your schools ample money with which to be operated.

Lord Northcliffs has indicated in a personal letter to the executive editor of The New York World that, in his opinion. Joseph Jefferson O'Neill is the best reporter in New York. He ordered the two-column story that O'Neill wrote about him reprinted in his London newspapers reprinted in his London newspapers with an explanatory note that it represented American reporting at its best. What it Must Do. Now the law goes further and tells the legislature where its gets on and off. It provides that the appropriation committees of the house of representatives and of the senate, being in charge of appropriations measures, shall sit jointly in open sessions while considering the budget, and shall begin such joint meetings within five days after the budget had been submitted to the legislature by the budget commission. This joint committee may cause the attendance of heads or responsible representatives of may cause the attendance of heads or responsible representatives of the departments, institutions and all other agencies of the state to furnish such information and answer such questions as the joint committee shall require, and to these sessions shall be admitted, with the right to be heard, all persons interested in the estimates under consideration. If it would adopt and seriously uphold the integrity of such a law a great deal of legislative quibbling would be eliminated, and the session could proceed with some order and precision. Instead of being dashed to pieces on the rocks of turmoil and dissension.

Florida's Strong

The chief point of difference is the more substantial "state aid" fund that Florida provides, as compared to Georgia; and the further

City Comptroller B. Graham West returned to Atlanta Tuesday following a two weeks' vacation spent in Cleveland, Ohio, as the guest of his daughter. The comptroller took advantage of his visit to familiarize himself with the affairs of the Cleveland city government, especially its financial problems. "Cleveland's system is conducted on much the same principles as ours," said Mr. West. "They are in a financial hole too, but part of Cleveland's trouble is due to the fact that she failed last year to issue bonds which she has authority to do through legislative act."

Mr. West indicated that he might issue a public statement comparing the financial systems of the two issue a public statement comparing the financial systems of the two cities.

JOHNS ST. HEARING

Postponement of a hearing covering the petition of the Southern railroad for permission to discontinue its interchange point at Johns street has been announced by the interstate commerce commission it was learned Tuesday at the Atlants Freight bureau. The hearing was postponed until October 3.

Recently the Southern railroad announced it would interchange cars with other railroads only at Decatur street, discontinuing the interchance station at Johns street. Atlanta manufacturers opposed the change and through the freight bureau a protest was made to the Interstate Commerce commission. It is asserted by the manufacturers that the discontinuance of the interchange station at Johns street will add matrially to their switching charges particularly on coal hauled to Atlanta rrom Tennessee and Kentucky by the Louisville and Nashville railroad.

Crackers Run Hit-Wild Against BABE'S TWO Moley's Tribe in Opening Game

Seven in One Frame. Faulkner, ss.
Oshorne Unhittable Mulvey, cf.

BY MARVIN MCCARTHY. Birmingham, Ala., August 23.— Special.)—The Barons threw in the ponge after about three rounds of attling here this afternoon, but the Crackers, asking and needing no quarter, refused to give the same, and the Moleyan forces were forced to take the beating that was coming to them. Tom Gallagher, pounded to a pulp by the Gate City swatters, was no more to be blamed for the walloping than his teammates, the walloping than his teammates, the walloping arrors be-

tainment at the local athletic club, and something of the antics of one and something of the antics of one "Shifty" Logan, a freak of the freakiest kind, must have entered their systems, for the Crackers did a little bit of everything at Rickwood yesterday, hitting the ball, wood yesterday, hitting the ball, stealing bases, getting hit by the pellet and twisting themselves into all kinds of inconceivable shapes in retrieving balls pasted to the field Baron batters.

Crackers Mass Attack. Lack of white paper, time, words and ambition prevents us from attempting a detailed account of how the Crackers scored their runs, so detail will be confined to a mere skeleton of what it could be. Here goes: Two singles, a sacri-fice, a fielders' choice and Stewart's error let in one run in the first inming.

Three hits, a wild pitch and Stewart's second bobble in as many inhings let in two more runs in the

cond inning.

A walk, two infield outs and errs by Bernsen and Silva let in other run in the third inning. In a fourth, consecutive hits by Graff, hmidt and Smith, Stewart's error Osborne's grounder and Guyon's t scored another run. Had Graff to been nipped off third by a quick row from Gallagher the Crackers ould have had two runs in this ame.

the fifth the Crackers rested. and the Brons regoleed, while Birningham fans yelled for action, and
he Crackers gave it to them, for in
he sixth they scored three runs.
Its by Smith and Osborne, Guyon's
ntended sacrifice and Gallagher's
rror, two infield outs, Wingo's sinle and Silva's error let in these
pree runs.

Frankmen Run Well.

In the seventh the Crackers were busy counting the runs already to their credit, and became enraged, it seemed, because they had only eight, so they went out with blood in their eyes, and the fun began for Gallagher and company.

Six hits, a base on balls, a sacrifice, an error or two and a pair of infield outs let in seven runs, and the Crackers were satisfied. Baron lans were yelling like flends, and it was probably to prevent a riot that the Crackers scored no more in the bainth.

Twin Bill Today.

The Barons didn't stand a chance, and everyone knew it. The Crackers and Barons wind up their series here tomorrow afternoon with a double-header. If the games tomorrow are duplicates of the one today, it is rumored that official scores, telegraph operators and fans will go on a strike.

Osborne Walks Nine.

That Pitcher Osborne, who occupied the mound for the Crackers, was not invincible is proven by the fact that he walked nine meen and that fifteen Barons were left stranded on the bags, However, we are making no comparison between the work of Gallagher and Osborne, for such would be ridiculous.

Chicago, August 23.—Another youthful golf star stepped into the spotlight Tuesday when Miss Miriam Burns, 17, woman champion of Missouri, defeated Mrs. F. C. Letts. Chicago champion, in the first round of the women's western championship tournament at Westmoreland. Miss Burns, playing like a veteran, defeated Mrs. Letts 5 and 4 and was never headed from the first tee. Then says J. was never headed from the first tee.

While the young Kansas City star is only 17 years old, she is not a stranger in tournament play. Last year in the women's national championships at Cleveland, she had the miefortune to be paired with Miss Alexa Stirling, the champion, in the first round, and was eliminated after one of the best matches of that tournament.

Her impressive defeat of Mrs. Letts has made her a strong contender for the western championship.

Paired with Cary, Owen was in fine form yesterday and the two seem to be the logical contenders this year for the doubles. They disposed of Waring and Winston yesterday, which gave their supporters added conviction of their ability to cop the trophy cup in this event. The scores were 6-4 and 6-4. Rain put a stop to the tournament this afternoon, only two double matches being started.

Washington, August 23 .- (Special By Constitution Leased Wire.)-In-dications of boll weevil activity in

Washington, August 23.—(Special, By Constitution Leased Wire.)—Indications of boil weevil activity in the northern part of Georgia as great as it was last year are found in a statement issued today by the director of research of the department of agriculture. The report, which was compiled by entomologists from North Carolina to Texas, indicated that the weevil has, in general, been as active as the worst seasons of the past, covering new territory in north Georgia, South Carolina and a few counties in North Carolina and a few counties in North Carolina and a few counties in North Carolina.

For the southern part of Georgia, however, the report states, infestation by the weevil has been less active on account of the dry weather had in June, which is said to be a partial offset to the conditions prevailing in the other sections. The same condition holds true for the northern and southern divisions of the state of Alabama, the report stated.

In Mississippi the damage is not general, but in Louisiana the activity has been unusual, according to surveys of those states. In southeastern and southwestern Arkansas, infestation is said to be very heavy, and in Oklahoma infestation heavy with a poor cotton condition. Texas reports the average loss from weevil activity estimated as "at least as great as" for last year. Arsenate poisoning in Louisiana and Texas is reported as successful but not sufficient to materially offset the total yield.

"To sum it up," the report stated, "it would seem that with a drought in a large part of Texas and unusual weevil activity in the northern part of the southeast and a large part of the valley, where the bulk of the crop was made in 1920, with a reduction of 28.4 per cent in acreage, and of 57 per cent in fertilizer, there is little doubt of a surprisingly small crop. The government condition report will appear September 1. August is 7.8 per cent if 7.8 per cent, the July condition, the August 25 condition will be 56.9 per cent, which is the lowest condition for twenty-five years exc

Prices of Stocks Wobble Along in Quiet Trading

New York, August 23.-Prices on the stock exchange opened lower this morning, sold off and then recovered, after which trading grew very quiet. That seems to be a regular schedule that will be followed

until something new one way or the other develops.

Mexican Petroleum, which closed at 91%, opened at 93 and then sold up to 95% on the news that President Teagle, of the Standard Oil of New Jersey; President Dehoney, of Mexican Petroleum; Pr lent Van Dyke, of Atlantic Refining; Chairman Sinclair, of Sinclair Consolidated, and President Beatty, of Texas Oil, are about to start to Mexico to confer with President Obregon, of Mexico. It is believed here that the trip will result in the removal of the export tax on oil imposed by the Mexican government when it was learned that congress was about to include an import tax on oil in the new tariff bill. The import tax on our tariff bill has since been removed.

Wall street heard early today that there would be Coca-Cola meetings today here and at Atlanta, at which the 3½ per cent semi-annual dividend on the preferred shares, which was suspended last June, would be resumed; also that there would be a change of New York representatives. It was reported that the company's earnings for June and July averaged \$600,000 a month; that three-quarters of the year's dividends on the \$10,000,000 preferred shares were earned in July; that before the end of the year, with sugar down and with labor cheaper, monthly earnings would be up to \$1,000,000; that the company had worked out of its high-priced sugar. This accounts for the recent 16-point advance in the stock.

Union Pacific July earnings, published today, show \$14,049,000 gross compared with \$16.382,000 for the same month last year, and \$14,649,000 for 1919. Operating net income was \$2,102,000 against \$250,000 and \$4,039,000 respectively. For the seven months gross was \$91,898,000, \$109,264,000, and \$93,992,000 respectively, with net operating income \$12.494.000, \$20.165,000 and \$20.314.000.

New York, August 23 .- The cotton market showed increasing strength and activity today, but after selling up to 14.32 for December or into new high ground for the movement and 40 points net higher, lost part of its gain under realizing and southern hedging. December closed at 14.16 with the general list closing steady at a net advance of 16 to 26 points.

The market opened firm at an advance of 14 to 17 points on a continuation of yesterday's buying movement, which was stimulated by the firmer showing of Liverpool, continued high temperatures in the southwest and bullish private crop reports. The latter included the rumored report of a prominent southern authority placing the condition at 51.5 and the indicated yield at 7,100,000 bales.

After selling about 30 to 35 points ton market showed increasing

at 51.5 and the indicated yield at 7,100,000 bales.

After selling about 30 to 35 points net higher on these features, there were reactions of 10 or 12 points of the day, but the market firmed up again on the detailed weather reports infirming the talk of high temperatures in both Texas and Oklahoma and another bullish crop report. This carried October up to 13.92 and January to 14.36 with active months generally showing net advances of 34 to 42 points, and gains of about 120 points from the low levels touched on the reactions of last week. Evidently this attracted considerable realizing while southern selling here became a little more active late in the afternoon, with last prices showing reactions of 15 or 16 points from the best.

hest.

A local authority makes the condition of the crop 52.7 and the indicated yield 7.470,000 bales compared with the government's end July report of 8,203,000. Very high temperatures were reported in both Texas and Oklahoma again today with maximums ranging above 100 degrees at all points in Oklahoma, and at all but 8 points in Texas. The late reaction was accompanied by reports that spots were offered more freely in the south.

aggressions, the market closing with a reactionary tone.

Apart from the quarterly financial statements of the copper companies, all of which disclosed larger deficits, the day's news brought little direct relation to market values. July statements of earnings submitted by the railroads were mixed, the Union Pacific system, however, showing a heavy net gain. Although money continued to flow if from interior sources, call and time rates were unchanged. Rumors of an impending reduction of local rediscounts by the Federal Reserve bank were discredited in well-informed quarters.

New York, August 23.—(Special.)—Our market opened and continued steady, with renewed buying from spot houses and abroad. The sentiment was materially better and coupled with continued unfavorable crop reports and reported boll weevil damage the market one time advanced 30 points over last night's close. During the early afternoon session a little resistance was met, possibly some profit taking and mild selling from traders expecting a reaction from the rapid advance of the market since last Friday. We rather anticipate a mild reaction from these prices, but at the same time believe it will be abortifived owing to the improvement in general conditions and continued unfavorable crop reports. The private, reports are just beginning to appear and are looked upon as being very bullish. We expect the market to steady up gradually and remain so up until the bureau report.

HUBBARD BROS. & CO. New York, August 23.—There was a further decline in the market for coffee futures today, owing to the easier ruling of Rio exchange and continued scattering liquidation, particularly in the near months. The market opened at a decline of 4 to 6 points and active positions sold about 10 to 15 points below last night's closing figures, with December touching 6.89, or about 22 points below the recent high level. Closing prices were about the lowest of the day, showing net declines of 7 to 15 points. Sales, including switches, were estimated Port Movement.

Liverpool Cotton.

In Local Market

New high Tigures were reached by Atlanta spot cotton Tuesday as the result of the accumulation of bullish factors in the local market. Middling was quoted at 12.75, an advance over Monday of 25 points and 95 points, or \$4.75 per bale above the quotations of a week ago.

New York spot cotton advanced 15 points to 13.75, and New Orleans spots up 50 points to 13 cents.

Continued unfavorable accounts from many sections of the cotton region, much higher Liverpool cables than was expected and a private bureau report on condition of 52.7 per cent of normal, put the price of cotton strongly higher, with all active months in the future markets also making new high ground for the movement.

American and foreign mill stocks are so low that even with hand-to-mouth buying, the farmer is practically assured of a demand equal to the new crop movement at its heaviest. There is some revival in the textile industry in this country and there is every indication that there will be a large demand for raw cotton from Germany, which is increasing its products to all countries. The trade in Japan and Belgium shows signs of revival and the reserve supplies of manufactured goods in the world are at a minimum. Country Produce. Wheat started with a moderately firm undertone due to heavy sales to exporters after Monday's close. The initial bulge brought out seling orders which caused a setback but the offerings were absorbed readily. Fluctuations continued along these lines the greater part of the session, trade being mainly local. Some buying of September and selling of December was noted. Toward the finish the buying power improved on the breaks and the export business figures stimu-

Corn was generally lower despite Monday's export business at the Seaboard of around two million bushels and local sales today of 200,000 bushels to the same account. Hot weather southwest which was calculated to mature the corn rapidly was a factor in this development.

the corn rapidly was a factor in this development.

Oats exhibited a fairly strong undertone but trade was limited and the range of prices narrow. Shipping demand was reported slow in this grain but country offerings declined.

Provisions withstood a further break in live hog prices mainly because packing house representatives were moderate buyers of lard. The trade extended to ribs.

tlations between the house and senate in an effort to reach an agreement on the bill which would make \$1,000,000 available for facilitating \$1,000,000 available for facilitating the exportation of agricultural products came to an abrupt halt today, conferees deadlocked over two major provisions of the measure, adjourning without fixing a time for another conference session.

Senate managers were reported to have insisted on the retention in the bill of a section eliminated by the house, authorizing the War Finance corporation to purchase \$200.000 worth of farm loan bonds. House conferees, it was said, refused to recommend such action.

Objection was also made by the senate conference delegation, it was reported, to a house amendment which would rigidly restrict government loans to foreigners engaged in the exportation of American farm products. Chairman McFadden, of the house banking committee, held that if the amendment was tricken out the section authorizing

Bookkeeper Falls Heir to **Fortune**

"Upon the death of an uncle I inherited \$50,000. I gave up my position and intended enjoying myself when I was stricken with a severe case of stomach trouble and colic attacks. Two of these attacks made me lose consciousness. After treating with our best doctors with little benefit, I decided to try Mayr's Wonderful Remedy, and it helped me at once. I have been entirely well for past year." It is a simple, harmless preparation that removes the catarrhal mucus from the infestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicits. Blackshear Ga., August 23.—(Speticial)—John W. Robertson, sheriff of Pierce county, was slain this afternoon in a swamp, into which he and others had gone in search of a horse which had been stolen from a farmer living near Patterson. Armed posses are scouring the woods for the slayer, and violence is feared should the man be found. In approaching the swamp, smoke was seen, and an investigation determined upon. The searchers divided, and the sheriff went into the swamp. Shots were shortly afterward heard by the others, who rushed in and found the sheriff mortally wounded. He died without making a statement. A moonshine still was found in operation at the scene of the killing.

John Aspinwall, said to have been seen leaving the swamp shortly after the shooting, and carrying liquor, is being held in the Pierce county jail. Officers have expressed the opinion that Aspinwall could throw light upon the circumstances under which the sheriff met his death.

Sheriff Robertson, who had served Pierce county in his official ca-

pacity for fourteen years, is survived by a wife and ten children. During his tenure of office he had made many friends throughout the county, and sentiment is inflamed.

WEALTHY BUSINESS MEN ARE INVOLVED ADAIR REALTY & TRUST CO. IN "SUCKER" GAME

BY JAMES L. KILGALLEN,
United News Staff Correspondent,
Chicago, August 23.—That business men of wealth and standing
were made "suckers," fleeced and
then forced to stick with Charles
W. French's alleged \$3,000,000
"swindle ring," is the theory of government officials who are investigating recent deals in high finance
and making arrests right and left.
The investigation is leading into
various parts of the country and inciudes a close examination of railroad deals, the "washing" of revenue stamps, huge real estate transactions and disposal of mail robbery
bonds. Chicago is believed to have
been headquarters for the swindle
band whose operations are declared
to have been nation-wide.
Several business men who have
had excellent business standing already have been arrested and more
arrests are to be made.

Four arrests were made Tuesday,
making a total of ten.

BOARDER KILLS GIRL AND THEN-SUICIDES

Bedford, Ohio, August 23.—Minnie Lakatos, 13, was shot through the heart and instantly killed by Mike Pinter, 38, today, after which Pinter shot and killed himself. The tragedy is said to have resulted from the refusal of the girl to marry Pinter because of her age. Pinter was a boarder at the Lakatos home.

WHAT ARE KRYPTOK BIFOCALS?

They are a combination of glass, allowing you to see both near and far with one solid glass. No removing your reading glass to see distant objects; no seams, lines or blisters to worry you or attract attention of others to your age. Absolutely invisible while on the face, they have proven a revelation to thousands who have come to us for them. Why are we successful with Kryptoks? Because we are extremely careful in the examination of your eyes, the correct grinding of the glass, and perfect adjustment of frames to each individual face, all of which is absolutely necessary to insure comfort and appearance. If you have Kryptoks bought elsewhere and cannot use them, bring them to us and we will find the trouble. Ask the better oculists or any of our patients what the Ballard service is to the public.
